55" 4K Ultra HD 144Hz QLED MiniLED Google TV™

The entertainment you love. With a little help from Google.

55" / 139 cm | **3840 x 2160** | **MiniLED** | **Google TV**

MiniLED technology in Sharp TVs uses hundreds of tiny LEDs to enable precise local dimming, allowing individual zones of the screen to adjust brightness independently. This results in high contrast, with deep blacks and bright highlights coexisting in the same frame - ideal for HDR content. Thanks to the dense LED backlight array, MiniLED TVs also deliver high brightness, making them well-suited for both dark home theatres and bright living rooms without sacrificing picture quality.
